## Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

## Tutoring Experience

I have spent six years working with students across a variety of international curricula, focusing on building a strong foundation in environmental science. From one-on-one sessions to group classes, I've helped students master IB ESS and other subjects, with many achieving top marks in their exams.

In addition to IB, I've worked with students preparing for IGCSE and A-Level exams, offering tailored support to meet their unique needs. My approach ensures that students not only understand the core concepts but also gain confidence in their ability to tackle challenging questions and succeed academically.
